Subject: Tentative Retreat Date

I wanted to throw out the following dates for the project retreat - February 13 and 14, 2007. This week seems to work better than the week of February 5th because Jay Field will be back in the office following his trip to Mexico and Evergreen College has a suitable room available on those days and nothing suitable the week of February 5th. On the downside, there is some sort of ecological risk conference during the week of February 12th. However, it is unclear to me who might be attending.

Please let me know if these days will not work for you. If we have critical mass, we will go ahead and finalize the date.

Thanks, Eric
